me sick.

Life mocking can give me diseases that make
upland forests because mosquitoes that
to sip nectar. I am now found only in the
another native flower. I frequently visit
grows like those of the Lehua blossoms,
Hawaiian mints. My bright red feathers
flowers like those of the ohia and the
allows me to reach nectar in native
the world. The special shape of my bill
forests of Hawaii! and nowhere else in
endemic forest bird. I am found in the
Alaska. My name is Ula. I am an 'iwi, an
Iwi.
