

Pūpū hinuhinu

Aloha! My name is Hūlali, and I am a tree snail. I live in Hawai'i's forests and spend my entire life in a single tree! I love to eat the algae and fungus that grow on the leaves and branches of the tree that I live in. My cousins and I have many different patterns and colors on our shells. Some call us Pūpū hinuhinu which describes our very shiny shells. We are indeed gems of the forest.
